Section 1. Objective and Policies. The State shall pursue a policy of economic growth in a manner consistent with the protection, preservation and revival of the quality of our fresh, brackish and marine waters. The general objective of this Order is to ensure water quality in the San Juan River System for present and future generations. Its specific objectives are:

- a) To streamline the processes and procedures in the prevention, control and abatement of pollution in the WQMA;
- b) To promote environmental strategies, the use of appropriate economic instruments and control mechanisms for the protection of the WQMA;

- d) To provide for a comprehensive management program for water pollution focusing on pollution prevention in the WQMA;
- e) To promote public information and education for stakeholders of the WQMA and encourage the participation of an informed and concerned public in water quality management and monitoring; and
- f) To encourage civil society and other sectors, particularly labor, the academe and businesses undertaking environment-related activities in their efforts to organize, educate and motivate the people in addressing pertinent environmental issues and problems in the WQMA.
